**I. Description of Operations Financed:**

**Overview:**

**The Department of the Army's Fiscal Year 2019 Overseas Contingency Operations, Operation and Maintenance, Army request is \$23,210,500.** The Army's mission is to fight and win our Nation's wars by providing prompt, sustained land dominance across the full range of military operations and spectrum of conflict in support of combatant commanders. We do this by 1) Executing Title 10 and Title 32 United States Code directives, to include organizing, equipping, and training forces for the conduct of prompt and sustained combat operations on land and 2) Accomplishing missions assigned by the President, Secretary of Defense and combatant commanders, and Transforming for the future.

Overseas Contingency Operations funding is used for the following operations:

**Operation FREEDOM'S SENTINEL (\$13,793,550):** On August, 21 2017 the President announced a plan to increase the presence of the United States military in Afghanistan, a strategy meant to combat the influence of the Taliban and the Islamic State in Iraq and Syria affiliates in the country. Operation FREEDOM'S SENTINEL is the transition from combat operations to a train, advise, and assist mission as Operation ENDURING FREEDOM'S combat mission ended on December 31, 2014. The United States will pursue two missions with the support of the Afghan government and the Afghan people: (1) The United States will work with our allies and partners as part of the North Atlantic Treaty Organization's Resolute Support Mission to continue training, advising, and assisting Afghan security forces. (2) The United States will continue our counterterrorism mission against the remnants of Al-Qaeda to ensure that Afghanistan is never again used to stage attacks against our homeland. Operating tempo in the Operation FREEDOM'S SENTINEL theater will remain constant as United States forces continue to seek out and destroy violent extremist organizations; maintain and increase the security posture; and assist the Afghan National Army's transition to assuming the security role. Additionally, theater-wide logistical operations will increase as the retrograde and reset of equipment occurs after over a decade of persistent employment. Retrograde is the return of equipment to facilities for reset and to support future force structure and operations. Once the equipment returns to the United States, the Army Reset program restores it to a desired level of combat capability commensurate with a unit's future mission. A fully funded Army Reset program is critical to ensuring that equipment worn and damaged from over a decade of fighting in harsh environments is recovered and restored for future Army contingency operations. Overseas Contingency Operation funding will be needed for three years after the last piece of equipment returns. Additionally, Operation FREEDOM'S SENTINEL actions include critical theater-wide support operations in Kuwait, Qatar, Bahrain, and the United Arab Emirates as well as stability and support operations in the United States Africa Command area of responsibility for Horn of Africa operations and operations for Joint Task Force Guantanamo. The Army is also providing theater-wide stability and security within the United States Central Command area of operation. These forces support regional partners with operational missions, bilateral, multilateral military exercises and theater security cooperation activities in the United States Central Command area of responsibility.

**Operation INHERENT RESOLVE (\$2,622,180):** The President authorized the United States Armed Forces to conduct military operations to support Iraqi forces in their ongoing campaign against the terrorist group Islamic State of Iraq and Syria. United States Central Command is working with partner nations to conduct targeted airstrikes in Iraq and Syria as part of the comprehensive strategy to degrade and destroy the Islamic State of Iraq and Syria. These efforts are focused on limiting the terrorist group's ability to lead, control, project power, and conduct operations. These actions are in the national security and foreign policy interests of the United States and are being undertaken in coordination with the Government of Iraq.

**European Deterrence Initiative (\$1,794,770):** On June 3, 2014, the President announced in Poland that the United States would provide temporary support to bolster the security and capacity of our North Atlantic Treaty Organization allies through the European Deterrence Initiative. The Army will pursue several lines of effort to accomplish the purposes of this initiative, including: (1) increased United States military presence in Europe on a rotational basis; (2) additional bilateral and multilateral exercises and training with allies and partners; (3) improved infrastructure to allow for greater responsiveness; (4) enhanced preposition of United States equipment in Europe; and (5) intensified efforts to build partner capacity for newer North Atlantic Treaty Organization members and other partners such as Georgia, Moldova, and Ukraine.

**Base to OCO (\$5,000,000)**

**II. Force Structure Summary:**

The force structure in Fiscal Year 2019 consists of overlapping nine months boots-on-the-ground rotations that cascade in and out of theater throughout the fiscal year in support of five operations to provide global presence: Operation FREEDOM'S SENTINEL, Operation INHERENT RESOLVE, European Deterrence Initiative, Counterterrorism, and Joint Task Force - Guantanamo.

Operation FREEDOM'S SENTINEL will pursue two missions with the support of the Afghan government and the Afghan people. We will work with our allies and partners as part of North Atlantic Treaty Organization Resolute Support Mission to continue training, advising, and assisting Afghan security forces and continue our counterterrorism mission against the remnants of Al-Qaeda to ensure that Afghanistan is never again used to stage attacks against our homeland. The United States remains strongly committed to a sovereign, secure, stable, and unified Afghanistan. We will continue to partner with Afghan forces to combat terrorism and create a better future for the Afghan people. In addition, through enduring security cooperation, we will continue assisting the Afghan government to build its capacity and self-sufficiency, as we transition to the next phase of the United States - Afghanistan defense relationship. We will continue to work with our Afghan partners to secure the great progress we have made since 2001 and to seize this defining moment of opportunity for Afghanistan's future.

Operation FREEDOM'S SENTINEL Fiscal Year 2019 rotation consists of two Division headquarters; two Brigade Combat Teams; one Security Force Assistance Brigade; one Aviation Task Force; three security force battalions; and all enablers required to support these units. The Army also serves as executive agent providing support to the Navy and a Marine Expeditionary force in Afghanistan.

The Army also provides theaterwide stability and security within the United States Central Command area of operations in support of Operation INHERENT RESOLVE and in the European Command area of operations in support of the European Deterrence Initiative (one Brigade Combat Team) and the United States Africa Command. These forces support regional partners with operational missions, bilateral, multilateral military exercises, and theater security cooperation activities.

Operation and Maintenance, Army - Overseas Contingency Operations  
Budget Activity BA 01: Operating Forces  
Activity Group 11: Land Forces  
Detail by Subactivity Group OCO 111: Maneuver Units

**I. Description of Operations Financed:**

MANEUVER UNITS - Funds the training and operations required to maintain readiness in the active Army's Brigade Combat Teams (BCT) and all organic forces associated with those BCTs through force generation, while leveraging live, virtual, and constructive capabilities to conduct training focused on Decisive Action in support of Unified Land Operations.

This request reflects the incremental costs associated with Maneuver Units requirements supporting the European Deterrence Initiative and Operation FREEDOM'S SENTINEL. Incremental costs include advise and assist brigade combat teams designed to partner with host nation conventional forces in order to increase their rate of development, pre-deployment and deployment training, unit maintained equipment costs, and an Armored Brigade Combat Team presence in Europe.

**II. Force Structure Summary:**

**Army Commands:**

U.S. Army Forces Command

**Army Service Component Commands:**

U.S. Army Africa

U.S. Army Europe

Detail by Subactivity Group OCO 113: Echelons Above Brigade

**I. Description of Operations Financed:**

ECHELONS ABOVE BRIGADE - Funds the training and day-to-day operations of echelons above brigade operational units whose mission is to provide critical, actionable intelligence, force protection, and area logistics support to Brigade Combat Teams through force generation, while leveraging live, virtual, and constructive capabilities to conduct training focused on Decisive Action in support of Unified Land Operations. Funds training for units available to train at home station. This includes critical tactical and national assets, such as: Phased Array Tracking Radar to Intercept on Target Air Defense Battalions and Chemical, Biological, Radiological/Nuclear, and Explosive units/operations required to protect both deployed units and the homeland. It also funds Army support to military police units providing force protection.

This request reflects the incremental costs associated with Echelons above Brigade requirements supporting Operation FREEDOM'S SENTINEL. Incremental costs include pre-deployment training costs to train Integrated Air and Missile Defense Patriots to protect the forces and selected geopolitical assets from aerial attack, missile attack, and surveillance. Patriot provides protection against theater ballistic missiles and air threats for critical assets in the corps, and echelons above corps areas.

**I. Description of Operations Financed:**

THEATER LEVEL ASSETS - Funds the training and operations of military units that directly support world-wide operations, the deployable elements of the Army Service Component Commands headquarters, through force generation, while leveraging live, virtual, and constructive capabilities to conduct training focused on Decisive Action in support of Unified Land Operations. Funds home station training for units available. Supports world-wide information operations and actionable intelligence to include reach back capability for deployed forces. Funds the contractor logistics support of reconnaissance and surveillance platforms such as the Gray Eagle and Shadow unmanned aircraft systems. It also funds costs associated with world-wide criminal investigation support provided by military investigators. Includes support for equipment, facilities, and all associated costs specifically identified to these units.

This request reflects the incremental costs associated with Theater Level Assets supporting Operation FREEDOM'S SENTINEL, and Operation INHERENT RESOLVE. Incremental costs include base expeditionary targeting and surveillance systems-combined, bistatic surveillance systems, counter improvised explosive device support, gunshot detection system, Night Eagle, Saturn Arch, theater logistics, force protection, military intelligence, and theater protection.

**I. Description of Operations Financed:**

LAND FORCES OPERATIONS SUPPORT - Funds force related maneuver training at the four Combat Training Centers (CTCs), which include the National Training Center, the Joint Readiness Training Center, the Joint Multinational Readiness Center and at the U.S. Army Combined Arms Center (Mission Command Training Program). Funds support joint training integration during CTC exercises. At the CTCs, funding supports ground Operating Tempo for the Opposing Force units, deployment costs for the units training, and contracts for the operation and maintenance of training devices. It includes repair parts and fuel support for Mine Resistant Ambush Protected vehicles located at each CTC and funds the Contractor Logistics Support contracts for multiple systems, such as Biological Identification Detection System, Portal Shields, High Mobility Artillery Rocket Systems, and Multiple Launch Rocket Systems.

This request reflects the incremental costs associated with Land Forces Operations Support requirements supporting Operation FREEDOM'S SENTINEL, Operation INHERENT RESOLVE, and the European Deterrence Initiative. Incremental costs include combat training centers transportation and land forces maintenance.

**II. Force Structure Summary:**

**Army Commands:**

U.S. Army Materiel Command

**Army Service Component Commands:**

U.S. Army Special Operations Command

U.S. Army Europe

**Direct Reporting Units:**

**I. Description of Operations Financed:**

AVIATION ASSETS - Funds the training and operations required to maintain readiness in the Army's aviation units and all organic forces associated with those units through force generation, while leveraging live, virtual, and constructive capabilities to conduct training focused on Decisive Action in support of Unified Land Operations. Funds training for units available to train at home station. This includes Combat Aviation Brigades, Echelon Above Brigade Aviation units, and Theater Aviation assets including the headquarters, aviation support, aviation maintenance support, and aviation operations support.

This request reflects the incremental costs associated with Aviation Assets requirements supporting the European Deterrence Initiative, Operation FREEDOM'S SENTINEL. Incremental costs include operating tempo for aviation rotation and training and contract services for theater aviation.

Budget Activity BA 01: Operating Forces  
Activity Group 12: Land Forces Readiness  
Detail by Subactivity Group OCO 121: Force Readiness Operations Support

**I. Description of Operations Financed:**

FORCE READINESS OPERATIONS SUPPORT provides support for key activities essential to Land Forces readiness. Includes operation of training ranges and associated facilities, active component support to the reserve components, centralized purchase and issue of Operation and Maintenance, Army funded clothing and equipment, and operation of key communication and tactical intelligence and related activities intelligence systems. Funds equipment, necessary facilities, and the associated cost specifically identified and measurable to Army units. Provides resources for Training Support Systems sustainment, maintenance, and operations of training programs and capabilities to support active component live, virtual, constructive, and gaming requirements. This includes: Training Support Centers, Integrated Training Area Management, Training Ranges, Battle Simulation Centers, Mission Command Training Complexes, and fielded system and non-system training devices. Force Readiness Operations Support activities provide non-organic administration, maintenance, and operational support for both Modified Table of Organization and Equipment and deployable Table of Distribution and Allowance (TDA) units critical to readiness but not funded by the Land Forces Activity Group. Funding supports operations and maintenance of key activities essential to the operational readiness of forward deployed land forces, such as Ground-based Midcourse Defense. Force Readiness Intelligence Support provides resources for the operation of TDA intelligence units and activities not identified elsewhere. Intelligence support enables the Army to leverage national intelligence systems, conduct tactical intelligence collection, satellite communication dissemination, and regularly access strategic level imagery for training and operational use. Resources activities which provide security, air traffic control, airfield and heliport support to Army installations, and end of life/technical refresh of commercial off-the-shelf computer components to Army units.

This request reflects the incremental costs associated with Land Forces Operations Support requirements supporting the European Deterrence Initiative, Operation FREEDOM'S SENTINEL, and Operation INHERENT RESOLVE. Incremental costs include central issue facilities, criminal investigation activities, cyber security initiatives, force readiness intelligence, force readiness operations support, and training area management operations.

**I. Description of Operations Financed:**

LAND FORCES DEPOT MAINTENANCE - This program funds depot level maintenance for equipment and digital technology associated with Army weapon systems. Depot Maintenance is the national maintenance standard that restores equipment condition and service life. It includes overhaul (restores equipment or components to a completely serviceable condition with a measurable [expected] life); rebuild (a near zero hour/zero mile maintenance process requiring end item total tear down involving the replacement of all expendable components, all aged components, reconditioning of structural components, in addition to the procedures identified for overhaul); and recapitalization (rebuilds and restores items to a standard configuration, installs modification work orders / engineering change proposals, and allows for technology insertion). Land Forces Depot Maintenance supports the Army's Modernization and Equipping Strategies by sustaining the availability and reliability of fielded systems. This ensures that Soldiers have the equipment they need to execute their assigned mission as they progress through the Sustainable Readiness Model Process. Army objectives for the Depot Maintenance program are: (1) sustain near and long term readiness; (2) maintain fleet reliability and capabilities; (3) resource core capabilities and maintain organic sources of repair (depots) in accordance with Title 10 U.S.C. 2464; (4) maintain Post Production Software Support to support a network centric Army battlefield; and (5) ensure a ready, responsive and flexible source of support to the Army.

This request reflects the incremental costs associated with Land Forces Depot Maintenance requirements supporting the European Deterrence Initiative. Incremental costs include depot level maintenance.

**I. Description of Operations Financed:**

**BASE OPERATIONS SUPPORT (BOS)** - Finances the Active Army installation services world-wide, ensuring an environment in which Soldiers and Families can thrive, and provides a structure that supports the readiness of an expeditionary Army. BOS supports all aspects of mission readiness and training, provides for operating and maintaining installations world-wide that serve as our Nation's power projection platforms, and provides essential services and programs that promote quality of life for our Soldiers, Families, and civilian workforce. Installation support is provided through the following programs and services:

**FACILITIES OPERATIONS** - Provides incremental funding to support basic municipal services to operate and maintain Army installations and contingency bases. Significant components of Facilities Operations are: (1) Pest Control; (2) Custodial Service and Refuse Collection; (3) Engineering Services and Real Property Maintenance including public works management and real estate/real property administration; (4) Grounds Maintenance and Pavement Clearing including grass cutting operations, removal of snow and ice, and street sweeping; (5) Fire Protection and Emergency Services for the protection of installation population including protection of critical infrastructure and aircraft, "First Responder" medical and hazardous materials services, land wild fires and conduct of life/safety/health programs for installation population and fire fighters; (6) Real Property Leases including all world-wide costs for General Services Administration (GSA) and non-GSA real estate leases; and (7) Utility costs associated with the procurement, production and distribution of utility services for Army installations including purchased electricity, steam, hot water, and other utilities, as well as the operation of electrical, natural gas, heating, air conditioning, refrigeration, water, and wastewater treatment systems.

**LOGISTICS OPERATIONS** - Sustains supply operations, operation of dining facilities, installation transportation services, and maintenance of tactical and non-tactical installation equipment. The three components of Logistics Services are: (1) Community Logistics including laundry and dry cleaning; Army food services (funds civilian pay, contracts and other costs to operate installation dining facilities, purchases operating supplies and replaces equipment for dining facilities), and Troop Issue Subsistence Activities services; (2) Transportation Logistics including arrangements for freight and personal property shipments, passenger movements, and Non-Tactical Vehicle (NTV) management for GSA or commercial leased and installation owned vehicles. Provides installation services such as contracted bus service, local drayage for household goods, operation of rail equipment, fuel for vehicles, and maintenance of Army-owned equipment and NTVs; and (3) Supply Logistics including operation of Central Issue Facilities, Retail Supply, and Installation Property Book accountability.

**COMMUNITY SERVICES** - Supports Soldiers through Morale, Welfare, and Recreation Programs such as Sports and Fitness, and Outdoor Recreation operations designed to improve Soldier readiness by promoting mental and physical fitness, building morale, and enhancing Soldier well-being.

**SECURITY SERVICES** - Installation Physical Security including services related to vehicle registration, visitor pass control facilities, communications, Access Control Point security, vehicle inspection areas, controlled access to mission essential and/or vulnerable areas, insider threat compliance, and anti-terrorism training to support and test security procedures and installation defensive measures.

**ENVIRONMENTAL PROGRAMS** - Addresses (1) Compliance including projects and activities to ensure compliance with federal, state, and local laws and regulations, binding agreements, and country-specific Final Governing Standards; (2) Conservation including management and sustainment of natural and cultural resources; (3) Pollution Prevention including prevention-based solutions to correct deficiencies and minimize future environmental liabilities; and (4) Restoration including legally-mandated cleanup not eligible for funding under the Defense Environmental Restoration Program or Base Realignment and Closure Environmental Restoration Program.

**INFORMATION TECHNOLOGY SERVICES MANAGEMENT** - Resources base communications to include local telephone service, local dedicated circuits, Wide-Area Telephone Service toll charges, administrative telephone services, and trunked radio systems. Incremental costs include installation, operation, maintenance, augmentation, modification, rehabilitation and leasing of non-tactical communications, terminal and switching facilities and services associated with production, acquisition, and support of visual images. Supports all common user Command, Control, Communication, Computers, and Information Management technological services, information management services, and network services. Provides funds for civilian manpower, contracts, support equipment, and costs to plan, manage, coordinate, and execute Information Technology Services Management. Supports Information Assurance services at Army installations and provides resources to monitor compliance and ensure availability of Non-classified and Secure Internet Protocol Router Network, conduct annual Federal Information Security Management Act system security controls, provides civilian manpower to conduct certification and accreditation, and fund the resources needed for the On-line Certificate Status Protocol licenses and personnel.

**COMMAND [Garrison] SUPPORT** - Establishes incremental resources for Overseas Contingency Operations related installation requirements for: (1) Public Affairs including distribution of internal information (e.g., base newspapers, military radio/TV stations), Public Information (e.g., press releases, media training/outreach), and Website Content Management; (2) Legal Support including Military Justice, Installation Operations, Administrative, International, and Business Law; (3) Financial Management including program/budget analysis/development, financial advisory services, budget execution support, and accounting liaison services; (4) Management Analysis including strategic planning, requirements development, performance management systems, and organizational structure analysis; (5) Procurement Operations including purchasing, leasing, obtaining supplies, services, minor construction; contract operations, and Government Purchase Cards management; (6) Installation Safety including training, evaluations/consultations; mishap and near misses/complaint investigations; airfield, industrial, off-duty recreational, range, explosives, and traffic safety awareness programs; (7) Installation Chaplain Ministries including worship services, chaplaincy education/training, advice to Commander, and counseling; (8) Installation History including accurate record of installation activities in peace/war and management of historical artifacts; (9) Postal Services, Honors/Protocol, Advisory Services, Administration, Executive Office, and Inspector General/Internal Review; (10) Army Contracting which provides a structure to execute effective and responsive contracting support world-wide for Army and other federal agencies to meet Warfighter needs across the full spectrum of military operations from installation operations to the last tactical mile.

This request reflects the incremental costs associated with Base Operations Support requirement for the European Deterrence Initiative and Operation FREEDOM'S SENTINEL. Costs include command support, information technology services management, logistics, security services, environmental programs, and real property services. These programs and services provide support to facility and facility operations for the Army Preposition Stock build facility and Army Brigade Combat Team presence.

**I. Description of Operations Financed:**

SUSTAINMENT, RESTORATION AND MODERNIZATION & FACILITY REDUCTION - Finances world-wide operations, activities, and initiatives necessary to maintain and sustain the Army's facilities; restores facilities to industry standards; and modernizes facilities to meet the full range of tasks necessary to provide relevant and ready land power for the Nation. These facilities are our community based installations and training sites. The Army leverages geographical locations of installations as power projection and support platforms and utilizes information infrastructure in support of reach-back capabilities. This program also supports the reduction of excess and obsolete inventory. The Army's Energy Program enables leaders to maximize available resources by providing the capability to manage energy status and resources.

SUSTAINMENT - Provides resources for maintenance and repair necessary to sustain facilities in good working order and in accordance with industry standards. Includes recurring maintenance checks and emergency repairs; plumbing, electrical, heating, ventilation, air conditioning maintenance and repair; major components repair; and replacement of roofs, furnaces, and air conditioners. Sustainment funding is required to prevent deterioration and corrosion of existing facilities and to complement the Army's restoration and modernization effort.

RESTORATION - Provides resources necessary to restore degraded facilities to working condition. Restoration consists of repair and replacement work to fix facilities damaged by previous inadequate sustainment, excessive age, natural disasters, fires, and accidents.

This request reflects the incremental costs associated with Sustainment, Restoration and Modernization requirement for the European Deterrence Initiative. Costs include facilities sustainment and restoration to support facility and facility operations for the Army Preposition Stock build facility and Army Brigade Combat Team presence.

**I. Description of Operations Financed:**

MANAGEMENT AND OPERATIONAL HEADQUARTERS - Finances the day-to-day operation of Army Management and Operational Headquarters activities. Funding provides for civilian pay and other support costs, including travel, training, contracts, supplies, communications, and information technology services for civilian and military personnel. Management and Operational Headquarters provide the following vital functions:

1. Developing policy and guidance, performing long-range planning, managing programming and budgeting of resources, including the oversight and distribution of resources, and conducting program performance reviews and evaluations.
2. Performing the synchronization and integration necessary to ensure that manpower, equipment, facilities, and other resources are available to produce trained and ready Soldiers and units.
3. Providing the supervision and administration required to ensure that the Army operates in accordance with U.S. law, Congressional intent, and the policies of the President and the Department of Defense.

**II. Force Structure Summary:**

There is no Force Structure in FY 2019.

**I. Description of Operations Financed:**

RESET - supports the reset, in the Continental United States, of equipment after completion of a combat rotation. Equipment, once reset, does not just go into storage. It goes to units who need to use it to train, and who need it in order to be ready for deployment in case they are called to deploy. The operations in the combatant command theater of operation placed demands on air and ground force equipment far beyond what is typically experienced during training or home station operations. These demands arise from higher usage rates and from the rigors of extended combat operations in harsh environments, resulting in increased maintenance requirements. After the last piece of equipment returns, it will take three years to fully recover and restore it. This funding will support the substantial organic and non-organic workload required for equipment retrograde, induction and repair, a process that can take up to three years for some items such as crash and battle damaged aircraft. Supports Operation FREEDOM'S SENTINEL and Operation INHERENT RESOLVE.

**I. Description of Operations Financed:**

U.S. AFRICA COMMAND - funds the headquarters day-to-day operations and mission activities for the U.S. Africa Command (USAFRICOM). USAFRICOM, along with other U.S. Government agencies and international partners, conducts sustained security engagement through military programs, military sponsored activities, and other military operations as directed to promote a stable and secure African environment in support of U.S. foreign policy. Its area of responsibility covers all of Africa, except Egypt (U.S. Central Command).

This request reflects the incremental costs associated with U.S. Africa Command requirements for Operation FREEDOM'S SENTINEL and Operation INHERENT RESOLVE. Incremental costs include contractor owned, contractor operated Intelligence, Surveillance, and Reconnaissance requirements, personnel recovery, force readiness intelligence, mission support to U.S. Africa Command activities, and Military Information Support Operations (MISO).

**I. Description of Operations Financed:**

U.S. EUROPEAN COMMAND - funds the headquarters day-to-day operations and mission activities for the U.S. European Command (USEUCOM). Situated at the crossroads of Asia, the Middle East, and Africa, Europe is home to the U.S.'s most capable allies and partners. USEUCOM works together with the North Atlantic Treaty Organization alliance, its allies, and partner nations in the region to address the shared security challenges threatening the U.S.'s vital national interests. USEUCOM's area of responsibility covers 51 countries and territories, including Europe, Iceland, Greenland, and Israel.

This request reflects the incremental costs associated with U.S. European Command requirements for the European Deterrence Initiative, Operation FREEDOM's SENTINEL, and Operation INHERENT RESOLVE. Incremental costs include information operations, interoperability exercises, deterrence exercise, and sustainment costs for the Army Brigade Combat Team and associated force structure.

**I. Description of Operations Financed:**

U.S. SOUTHERN COMMAND - funds the headquarters day-to-day operations and mission activities for the U.S. Southern Command (USSOUTHCOM). USSOUTHCOM is responsible for providing contingency planning, operations, and security cooperation for Central America, South America, the Panama Canal, and the Caribbean (except U.S. commonwealths, territories, and possessions); as well as for the force protection of U.S. military resources at these locations.

This request reflects the incremental costs associated with U.S. Southern Command requirements for Operation FREEDOM'S SENTINEL. Incremental costs include requirements for Guantanamo Bay.

**II. Force Structure Summary:**

**Combatant Commands:**

Budget Activity BA 02: Mobilization  
Activity Group 21: Strategic Mobilization and War Reserves  
Detail by Subactivity Group OCO 211: Strategic Mobility

**I. Description of Operations Financed:**

STRATEGIC MOBILITY – The strategic mobility program provides a globally responsive and regionally engaged program that directly supports the National Military Strategy (NMS), the Army Strategic Planning Guidance (ASPG), the Army Vision deployment objectives, and Geographic Combatant Commanders' Operational Plans in an effort to link current capabilities with future force projection requirements. The three major efforts for Strategic Mobility are prepositioning of combat materiel (both afloat and ashore), power projection out-loading, and deployment readiness training. Strategic Mobility supports the NMS and the ASPG through the Army Prepositioned Stocks (APS) unit equipment and activity sets by providing an immediate response capability to deploying forces.

FY 2019 OCO funding consists of the realignment of APS-3 Afloat from base to OCO.

**I. Description of Operations Financed:**

SECURITY PROGRAMS - supports intelligence support to Operation FREEDOM'S SENTINEL, Operation INHERENT RESOLVE, and the European Deterrence Initiative by providing sustainment and operation of Intelligence, Surveillance, and Reconnaissance capabilities already operating in theater, such as Tactical Unmanned Aerial Systems, Constant Hawk Full Motion Video platforms, Distributed Common Ground System - Army, Persistent Surveillance Systems, and Measurement and Signature Intelligence Ground sensors. This effort also provides unique capabilities needed to find, fix, finish, exploit, analyze, and disseminate critical information pertaining to targets of interest. Unique capabilities provided in this category include sustainment associated with critical Intelligence initiatives coordinated closely with The Office of the Secretary of Defense Military Intelligence Programs and the Under Secretary of Defense for Intelligence Operations Directorate. Other key activities include continued support to the Human Terrain System teams currently in theater and Continental United States based reach-back intelligence capabilities in support of Operation FREEDOM'S SENTINEL, Operation INHERENT RESOLVE, and the European Deterrence Initiative. These resources are used also to selectively augment the Army intelligence workforce using government civilian or contracted personnel, as appropriate, to meet the vastly increased demand for actionable intelligence in theater. Analysts working within existing Department of Defense and Intelligence Community organizations provide real-time or near real-time analytic products in direct support of commanders engaged in the execution of their missions. This is accomplished through the collection, analysis, and fusion of multiple sources of information, including Human, Signals, Measurement and Signature, and Imagery Intelligence; and Counterintelligence. Note: Classified details of the Fiscal Year 2019 Overseas Contingency Operations request in support of the Army Military Intelligence Programs are contained in Volume 1A of the Department of Defense Military Intelligence Program Congressional Justification Book.

**I. Description of Operations Financed:**

**SERVICEWIDE TRANSPORTATION** - Finances world-wide movement of materiel for Army force modernization, sustainment, and restructuring. Servicewide transportation operations include the movement of materiel between the Army depots and Army customers; movement of goods and mail to support service members world-wide; management of ground transportation; and port operations. The program reimburses the Military Surface Deployment and Distribution Command (SDDC) for freight management, personal property services, and other transportation support and related systems outside the rate structure.

**SECOND DESTINATION TRANSPORTATION (SDT)** - Finances line haul, over-ocean, and inland transportation for world-wide movement of Army supplies and equipment to and from depots, between commands, and to overseas commands by civilian and military air and surface modes. SDT funds the over-ocean transportation of Army civilian employees, their dependents, and personal property in conjunction with a permanent change-of-station overseas; the movement of Army Post Office mail, Army and Air Force Exchange Service (AAFES) products, subsistence, fielding and directed materiel redistribution of major end-items, and ammunition to fill equipment readiness shortages. It also funds the costs of charter, rental, or lease of transportation movement equipment; services not available on government tariff basis; and other fact-of-life necessities. Incremental cost also supports SDT of Army supplies and equipment transported by the Air Mobility Command, Military Sealift Command, Military SDDC, and commercial carriers. The Army reimburses the Defense Logistics Agency (DLA) for over-ocean movement, of DLA-managed secondary items to Army customers. The performance measures are expressed in short tons of cargo shipped, and the respective cost per ton.

This request reflects the incremental costs associated with Servicewide Transportation requirements for European Deterrence Initiative, Operations FREEDOM'S SENTINEL, and Operation INHERENT RESOLVE. For FY 2019 also includes realignment from base to OCO for Directed Material Movement/Redistribution, Army/Air Force Exchange Service, Force Modernization/Recap, and Operations.

**I. Description of Operations Financed:**

CENTRAL SUPPLY ACTIVITIES - Funds end-item procurement, management, and sustainment of materiel and equipment to equip, deploy, and sustain the Army and other U.S. Military Services world-wide.

SUSTAINMENT SYSTEMS TECHNICAL SUPPORT (SSTS) - SSTS provides for component re-engineering, design, modification, and technical support for the Army's Recapitalization and National Maintenance Programs. Preserves the Army's resource investment in tactical and combat vehicles, missiles, bridges, rail, and watercraft systems currently deployed throughout the world. The program also provides tactical field units with on-site and remote, organic, and contractual technical assistance with critical contractor-unique skill sets. It is the only post-production capability for maintaining and sustaining key Army weapon systems.

ARMY END-ITEM SUPPLY DEPOT OPERATIONS (SDO) - Finances the issue, receipt, storage, care of supplies in storage, packaging, set assembly and disassembly of major end-items. SDO are predominantly performed by Defense Logistics Agency depots, which the Army reimburses for the work performed. Army Depots and arsenals perform supply depot operation functions for missiles and other unique or hazardous end-item requirements.

This request reflects the incremental costs associated with Central Supply Activities requirements for the European Deterrence Initiative and Operation FREEDOM'S SENTINEL. For FY 2019 includes the realignment of base to OCO for Sustainment Systems Technical Support.

**I. Description of Operations Financed:**

LOGISTICS SUPPORT ACTIVITIES (LSA) - Funds various logistics support functions, which equip, deploy, and sustain the Army and other Services world-wide. LSA contains the world-wide Logistics Management Systems for Class VII major end-item fielding and redistribution; Class IX repair parts unit-level and wholesale requisitioning and distribution; and readiness and asset visibility reporting. LSA programs include Logistics Sustainment Programs, Logistics Operations, Information Management, and Acquisition Support Systems.

INFORMATION MANAGEMENT (IM) - IM includes resources for computer system analysis, design, and programming. Funds provide for automation technical support and associated personnel, equipment, and other costs supporting mission data processing facilities. Funding also support organizations or activities responsible for designing, coding, testing, documenting, and subsequently maintaining/modifying computer operations or applications programs for Army-wide use. Incremental funding supports Information Management of Automation Support.

This request reflects the incremental costs associated with Logistic Support Activities requirements for Operation FREEDOM'S SENTINEL. For FY 2019 reflects the realignment from base to OCO for Logistics Operations and Information Management.

**I. Description of Operations Financed:**

AMMUNITION MANAGEMENT – The Ammunition Management Program funds the Army in its role as the Department of Defense (DoD) Single Manager for Conventional Ammunition (SMCA) and includes the Office of the Executive Director for Conventional Ammunition. The ammunition management program encompasses research, development, acquisition, distribution, storage, maintenance, and demilitarization. It equips, sustains and demilitarizes ammunition and armament capabilities across the services. The program is responsible to develop and support the protective systems enabling joint warfighter dominance. Funding for Ammunition Management supports a ready and modern Army and ensures reshaping of the current force from one optimized for large-scale missions to a force that is broadly capable of missions across the range of military operations. The Army remains globally responsive and regionally engaged and aligned throughout the world. Funding ensures compliance with the treaty responsibilities of: Convention on the Prohibition of the Development, Production, Stockpiling, and use of Chemical Weapons and on Their Destruction. Requested funds support U.S. Code Sec 4552, which states: "It is the policy of the U. S. - (6) to encourage the creation of jobs through increased investment in the private sector of the U.S. economy; (7) to foster a more efficient, cost-effective, and adaptable armaments industry in the U.S.; (8) to achieve, with respect to armaments manufacturing, storage, maintenance, renovation, and demilitarization capacity, an optimum level of readiness of the national technology and industrial base within the U. S. that is consistent with the projected threats to the national security of the U.S. and the projected emergency requirements of the armed forces..."

This request reflects the incremental costs associated with Ammunition Management requirements for the European Deterrence Initiative and Operation FREEDOM'S SENTINEL. Incremental costs include ammunition readiness and ammunition shipment. FY 2019 reflects the realignment of base to OCO for Ammunition Management - Single Manager Conventional Ammunition.

**I. Description of Operations Financed:**

OTHER CONSTRUCTION SUPPORT AND REAL ESTATE MANAGEMENT - funds the U.S. Army Corps of Engineers project support in Operation FREEDOM'S SENTINEL. Project support includes: (1) Transatlantic Division; (2) BUCKEYE Program; (3) Field Force Engineering Program and; (4) Army Geospatial Support Program.

The Transatlantic Division provides the only deployed engineering and construction operation support in Afghanistan and provides direct support to the International Security Assistance Force, Combined Security Transition Command, and the U.S. Agency for International Development. The Transatlantic Division also provides oversight of the construction of runways, airfields, military housing, provincial roads, bridges and micro-hydro power stations. Funding for the Transatlantic Division pays for Life support for employees on non U.S. bases, travel and training for employees deploying and redeploying, equipment unique overseas contingency operations, and bandwidth requirements.

The BUCKEYE program collects and rapidly produces high-resolution geospatial color imagery and elevation data over a commander's area of interest and supports change detection; intelligence, surveillance and reconnaissance; and high-resolution three-dimensional mapping. Funding for the BUCKEYE program pays for labor, training, administration costs and overhead for program management and for unmanned aircraft system operations.

The Field Force Engineering Program provides engineering and construction operation support. Funding for the Field Force Engineering Program pays for Forward Engineering Support Teams - Advanced, Contingency Real Estate Teams, and Environmental Support Teams.

The Army Geospatial Support Program provides Army specific geospatial information, products, analysis, and services including terrain analysis and mapping. Funding for this program pays for contract support.
